We invite you for a great adventure to Boszkowo, beautiful village located in the heart of the Przemęcki Landscape Park, in the south-west of Greater Poland, by the crystal-clear Dominickie Lake. The camp will have a sailing character, but apart from activities on the water, time will be filled with very attractive activities and recreational - integration games. We plan a one-day camping under tents with the evening campfire. Last two days, Friday and Saturday, we will spend visiting Wrocław - one of the most beautiful and historical city in Europe! The camp will be held under the most restrictive conditions and safety rules. We invite you to Boszkowo!
